08	Newly Revised Regulations of Gansu Province on Rural Domestic Waste Management	20260815 August 15, 2026	Standing Committee of Gansu Provincial People's Congress

01 Provisions on Indicating the Comprehensive Financing Cost of Personal Loan Business

Effective Date 2026.08.01

Summary The Provisions require that any institution engaging in personal lending—whether banks, consumer finance companies or online platforms—must present borrowers with a comprehensive financing cost disclosure form. Lending institutions must undertake in the disclosure form that, apart from the fees already listed, no additional loan-related charges will be collected.

02 Measures for the Administration of Branch and Representative Offices of Social Organisations

Effective Date 2026.08.01

Summary The Measures require social organizations to be prohibited from establishing regional branch offices, clan-based branch offices, branch offices with significantly overlapping memberships, and branch offices with identical or highly similar names and business scopes.

03 Measures for the Administration of Evaluation and Commendation Activities of Social Organisations

Effective Date 2026.08.01

Summary The Measures clarify that evaluation and commendation activities by social organisations require approval and implementation of project list management, with strict approval and total quantity control. In principle, each social organisation may only establish one evaluation and commendation project, generally conducted once every five years.

04 Measures for the Administration of Pharmaceutical Representatives

Effective Date 2026.08.01

Summary The Measures require pharmaceutical representatives to hold associate degrees or above in medicine, pharmacy or related fields and to possess relevant clinical pharmaceutical knowledge. Pharmaceutical representatives are subject to nine prohibitive circumstances, including undertaking drug sales tasks and providing kickbacks or disguised benefits, with strict prevention of commercial bribery.

05 New Edition of Technical Specifications for Occupational Health Surveillance (GBZ 188-2025)

Effective Date 2026.08.01

Summary The new edition defines three categories of routine examinations (pre-employment, during-employment and post-employment), retaining only unified mandatory test items with standardised baseline screening for all positions. Six new mandatory baseline test items are added for high-temperature workers: comprehensive liver function, kidney function, liver and kidney ultrasound, and thyroid function panel (FT3/FT4/TSH).

06 Provisions of the PRC Customs on Health Quarantine Administration of Special Goods Crossing the Border (GACC Order No. 281)

Effective Date 2026.08.01

Summary The Provisions require units importing or exporting special goods to establish biosafety management systems and production, sales and usage records for special goods. Records must be authentic and retained for a minimum of three years.

07 Mandatory Certification (CCC) for Electric Vehicle Power Supply Equipment

Effective Date 2026.08.01

Summary The State Administration for Market Regulation has decided to implement mandatory product certification (CCC) for electric vehicle power supply equipment. From August 1, electric vehicle power supply equipment without CCC certification and marking may not be manufactured for sale, imported or used in other business activities.

08 Second-Phase Expansion of Pilot Programme for Personalised Cosmetics Services

Effective Date 2026.08.01 (Pilot Programme until 2027.09.30)

Summary Eight provinces and autonomous regions (Liaoning, Jiangsu, Anhui, Fujian, Jiangxi, Hubei, Sichuan and Xinjiang) are included in the personalised cosmetics service pilot programme. Participating establishments may, based on personalised consumer needs, conduct on-site small-batch simple blending and packaging of two or more registered general cosmetics.

09 Ecological Environment Code of the People's Republic of China

Effective Date 2026.08.15

Summary The first code in the field of ecological and environmental protection, integrating multiple standalone pollution prevention laws, unifying environmental supervision rules and administrative enforcement standards, improving ecological damage compensation and public interest litigation systems, and coordinating the governance of air, water, soil, ocean and solid waste to provide fundamental and comprehensive legal safeguards for building a Beautiful China.

10 Measures for Network Data Security Risk Assessment

Effective Date 2026.08.20

Summary Jointly issued by the CAC, MIIT and MPS as a supporting regulatory document of the Data Security Law, the Measures establish a tiered and categorised routine risk assessment mechanism. Important data processors shall conduct annual security risk assessments, and organise special assessments when significant changes occur in important data security status. General data processors are encouraged to conduct assessments at least once every three years.

11 Implementation Measures for the Minimum Proportion Targets for Renewable Energy Consumption and the Renewable Energy Power Consumption Responsibility Weight System (Order No. 42 of 2026)

Effective Date 2026.08.01

Summary The Measures establish a dual constraint mechanism of minimum renewable energy consumption proportion and power consumption responsibility weight, implementing differentiated assessment by province for both total and non-hydroelectric indicators, with concurrent medium and long-term targets to strengthen planning guidance. Green certificate trading may be used to cover consumption shortfalls, and a closed-loop monitoring, assessment and supervision system is established.

12 Three National Standards in the Tourism Sector

Effective Date 2026.08.01

Summary Three standards covering key tourism sectors: tourism shopping, elderly group travel and hotel accommodation. The tourism shopping standard requires transparent pricing and a 48-hour return policy; the elderly tourism standard emphasises age-friendly itinerary arrangements and prohibits unscheduled shopping stops without written application; the hotel accessibility standard specifies ramp and accessible room hardware requirements.

13 Specifications for Self-Storage Operation Management (GB/T 47529—2026)

Effective Date 2026.08.01

Summary The first national standard in the self-storage sector. The standard clarifies the definition of the self-storage business model, establishes unified industry guidelines across four dimensions: business qualifications, facility construction, daily operations and safety management. It defines prohibited items and specifies fire safety, video surveillance and emergency response requirements.

14 Safety Requirements for New Energy Vehicle Maintenance Operations (GB/T 47439)

Effective Date 2026.08.01

Summary The first national safety standard for new energy vehicle maintenance, unifying safety guidelines for pure electric, plug-in hybrid and hydrogen fuel cell vehicles, detailing full-process operation specifications for high-voltage systems and hydrogen supply devices, and improving personnel protection, risk identification and emergency management requirements.

01 Measures of Beijing Municipality on Non-motor Vehicle Management in the Express Delivery and Food Delivery Industry (Trial)

Effective Date 2026.08.01

Summary Electric bicycles used for express delivery and food delivery services shall be registered and display special licence plates.

02 Detailed Rules of Jiangsu Province for the Management of Comprehensive Bid Evaluation Experts and Expert Pool

Effective Date 2026.08.01

Summary Requires permanent electronic archival of bid evaluation experts, recording basic information, evaluation participation and performance assessments. Once approved, evaluation specialties may not be deleted during a term of appointment.

03 Regulations of Guangdong Province on Promoting Maritime Search and Rescue Cooperation in the Guangdong-Hong Kong-Macao Greater Bay Area

Effective Date 2026.08.01

Summary The first cross-border maritime search and rescue legislation for the Greater Bay Area. Hong Kong and Macao rescue vessels and aircraft may enjoy landing, resupply and customs clearance facilitation when participating in rescue operations in Guangdong waters. Routine mechanisms for distress notification, on-site coordination and distressed person transfer are established.

04 Regulations of Henan Province on the Protection, Inheritance and Development of Yu Opera

Effective Date 2026.08.01

Summary For Yu Opera professionals working long-term at the grassroots level, assessment will focus on actual work performance with appropriately relaxed requirements for education, academic achievements and tenure. Outstanding Yu Opera talent meeting criteria may apply for national and provincial talent programmes.

05 Shanxi Urban Construction Waste Transfer Waybill Management System

Effective Date 2026.08.01

Summary Discharge units must precisely weigh construction waste and initiate transfer waybills; transport units must verify waybill information and accurately report transport entities and routes; disposal units must verify information from preceding and succeeding stages.

06 Measures of Shandong Province for Geographic Spatial Data Management

Effective Date 2026.08.25

Summary Coordinating provincial basic geographic, thematic and remote sensing data management, implementing unified spatial benchmarks and intensive sharing mechanisms, regulating data submission and security control, and eliminating redundant spatial database construction.

07 Regulations of Anhui Province on Promoting the Tea Industry

Effective Date 2026.08.01

Summary Facilities constructed in and around tea gardens directly for tea cultivation and primary processing shall be managed under facility agricultural land regulations. Tea-producing areas are supported in piloting specialty agricultural product insurance with tea insurance included in the subsidy scope.

08 Newly Revised Regulations of Gansu Province on Rural Domestic Waste Management

Effective Date 2026.08.15

Summary Adapted to align with the Ecological Environment Code, strictly controlling waste landfill activities in key areas, improving rural waste classification, collection, transport and disposal mechanisms, and clarifying management responsibilities of all parties.
